

CANDIDATE NAME: _____

CENTRE NUMBER: _____ CANDIDATE NUMBER: _____

CEFR ENGLISH EXAM

B2 First (FCE)

READING AND USE OF ENGLISH

Topic: Environment & climate change

Time (approx): 1 hour 15 minutes

INSTRUCTIONS TO CANDIDATES

Do not open this question paper until you are told to do so.

Write your name, centre number and candidate number on your answer sheet if they are not already there.

Read the instructions for each part of the paper carefully.

Answer all the questions.

Read the instructions on the answer sheet. Write on the answer sheet. Use a pencil.

You must complete the answer sheet within the time limit.

At the end of the test, hand in both this question paper and your answer sheet.

PART 1

Read the text below and decide which answer (A, B, C or D) best fits each gap.

The increasing levels of carbon dioxide in the atmosphere have been linked to a number of environmental problems, including global warming and more frequent natural disasters. As the world's population continues to grow, the demand for energy and resources is also increasing, leading to the depletion of natural resources and pollution of the environment. (1) _____ to the growing threat of climate change, many governments and organizations are working to reduce greenhouse gas emissions and promote sustainable development. (2) _____ to the efforts of these groups, carbon emissions have begun to decrease, and renewable energy sources, such as solar and wind power, have become more

popular. (3) _____ are being implemented to reduce waste and promote recycling, and (4) _____ to the growth of sustainable agriculture, many farmers are now using more environmentally friendly practices. (5) _____ to the increasing awareness of environmental issues, consumers are becoming more conscious of the impact of their purchasing decisions, and (6) _____ to the trend towards sustainability, many companies are now incorporating environmental considerations into their business strategies. (7) _____ to the growing importance of environmental protection, governments and organizations are working together to develop and implement policies that promote sustainability and reduce the impact of human activities on the environment. (8) _____ the efforts of these groups, it is likely that the world will continue to face environmental challenges, but by working together, we can reduce the severity of these challenges and create a more sustainable future.

1. Gap 1

A A. Despite

B B. However

C C. Therefore

D D. As a result

2. Gap 2

A A. As a result of

B B. Due to

C C. In spite of

D D. Because of

3. Gap 3

A A. Steps

B B. Measures

C C. Programs

D D. Initiatives

4. Gap 4

A A. As a result of the growth of sustainable agriculture

B B. Due to the efforts of farmers

C C. In spite of the increasing demand for food

D D. Because of the trend towards sustainability

5. Gap 5

A A. As a result of the increasing awareness of environmental issues

B B. Due to the efforts of consumers

C C. In spite of the increasing demand for products

D D. Because of the trend towards sustainability

6. Gap 6

- | | |
|--|--|
| A A. Due to the trend towards sustainability | B B. As a result of the growing awareness of environmental issues |
| C C. In spite of the increasing demand for products | D D. Because of the efforts of companies |

7. Gap 7

- | | |
|---|---|
| A A. As a result of the growing importance of environmental protection | B B. Due to the efforts of governments and organizations |
| C C. In spite of the increasing challenges facing the world | D D. Because of the trend towards sustainability |

8. Gap 8

- | | |
|---|---|
| A A. As a result of the efforts of governments and organizations | B B. Due to the trend towards sustainability |
| C C. In spite of the growing challenges facing the world | D D. Because of the importance of environmental protection |

PART 2

Read the text below and think of the word which best fits each gap. Use only one word in each gap.

The increasing levels of carbon dioxide in the atmosphere have been linked to a number of environmental problems, including global warming and more frequent natural disasters. As the world's population continues to grow, the demand for energy and resources is also increasing, leading to the depletion of natural resources and pollution of the environment. (1) _____ to the growing threat of climate change, many governments and organizations are working to reduce greenhouse gas emissions and promote sustainable development. The efforts of these groups have been (2) _____ by the decrease in carbon emissions and the increase in the use of renewable energy sources, such as solar and wind power. (3) _____ are being implemented to reduce waste and promote recycling, and (4) _____ to the growth of sustainable agriculture, many farmers are now using more environmentally friendly practices. (5) _____ to the increasing awareness of environmental issues, consumers are becoming more conscious of the impact of their purchasing decisions, and (6) _____ to the trend towards sustainability, many companies are now incorporating environmental considerations into their business strategies. (7) _____

the efforts of these groups, it is likely that the world will continue to face environmental challenges, but by working together, we can reduce the severity of these challenges and create a more sustainable future.

9. Gap 9

10. Gap 10

11. Gap 11

12. Gap 12

13. Gap 13

14. Gap 14

15. Gap 15

PART 3

Read the text below. Use the word given in capitals at the end of some of the lines to form a word that fits in the gap in the same line.

The increasing levels of carbon dioxide in the atmosphere have been linked to a number of environmental problems, including global warming and more frequent natural disasters. As the world's population continues to grow, the demand for energy and resources is also increasing, leading to the (1) _____ of natural resources and pollution of the environment. (2) _____ to the growing threat of climate change, many governments and organizations are working to reduce greenhouse gas emissions and promote sustainable development. The efforts of these groups have been (3) _____ by the decrease in carbon emissions and the increase in the use of renewable energy sources, such as solar and wind power. (4) _____ are being implemented to reduce waste and promote recycling, and (5) _____ to the growth of sustainable agriculture, many farmers are now using more environmentally friendly practices. (6) _____ to the increasing awareness of environmental issues, consumers are becoming more conscious of

the impact of their purchasing decisions, and (7) _____ to the trend towards sustainability, many companies are now incorporating environmental considerations into their business strategies.

- 16. IMPOSE
- 17. ACCORD
- 18. REVIEW
- 19. MEASURE
- 20. AWARE
- 21. SUSTAIN

PART 4

Complete the second sentence so that it has a similar meaning to the first sentence, using the word given. Do not change the word given. You must use between two and five words, including the word given.

Complete the second sentence so that it has a similar meaning to the first sentence, using the word given. Do not change the word given. You must use between two and five words, including the word given.

- 22. I haven't seen her for ages. SINCE: It's been a long time _____ her.
- 23. The new policy has caused a lot of problems. BECAUSE: It's because _____ the policy that we're facing these problems.
- 24. We have been studying this topic for weeks. IN ORDER TO: We have been studying this topic _____ get a better understanding of it.

25. The company has made a lot of money. AS A RESULT: It's made a lot of money _____ the sale of their new product.
26. I'm tired because I didn't sleep well last night. DUE TO: I'm tired _____ I didn't sleep well last night.
27. The new employee is very enthusiastic. BECAUSE: He's very enthusiastic _____ he's new to the company.

PART 5

Read the text and answer Questions 1-6. For each question, choose the correct answer A, B, C or D.

The increasing levels of carbon dioxide in the atmosphere have been linked to a number of environmental problems, including global warming and more frequent natural disasters. As the world's population continues to grow, the demand for energy and resources is also increasing, leading to the depletion of natural resources and pollution of the environment. Many governments and organizations are working to reduce greenhouse gas emissions and promote sustainable development. The efforts of these groups have been successful, and carbon emissions have begun to decrease. Renewable energy sources, such as solar and wind power, have become more popular, and governments are implementing policies to reduce waste and promote recycling. Farmers are now using more environmentally friendly practices, and consumers are becoming more conscious of the impact of their purchasing decisions. As a result, many companies are now incorporating environmental considerations into their business strategies.

28. What does the writer suggest about the impact of carbon dioxide on the environment?
- | | |
|---------------------------------------|--------------------------------------|
| A A. It has a positive impact. | B B. It has no impact. |
| C C. It has a negative impact. | D D. It has a neutral impact. |
29. What is the effect of the increasing demand for energy and resources on the environment?
- | | |
|-------------------------------|-------------------------------|
| A A. It is beneficial. | B B. It has no effect. |
| C C. It is harmful. | D D. It is neutral. |

30. What are the efforts of governments and organizations aimed at reducing?
- A A. Carbon emissions B B. Renewable energy sources
C C. Waste and pollution D D. Natural resources
31. What has become more popular as a result of the efforts of governments and organizations?
- A A. Fossil fuels B B. Renewable energy sources
C C. Nuclear power D D. Coal
32. What are governments implementing policies to reduce?
- A A. Waste and pollution B B. Carbon emissions
C C. Renewable energy sources D D. Natural resources
33. What are consumers becoming more conscious of?
- A A. The impact of their purchasing decisions on the environment B B. The benefits of renewable energy sources
C C. The importance of recycling D D. The effects of climate change

PART 6

Six sentences have been removed from the text. Choose from the sentences A-G the one which fits each gap. There is one extra sentence which you do not need to use.

The increasing levels of carbon dioxide in the atmosphere have been linked to a number of environmental problems, including global warming and more frequent natural disasters. As the world's population continues to grow, the demand for energy and resources is also increasing, leading to the depletion of natural resources and pollution of the environment. [Gap 1] Many governments and organizations are working to reduce greenhouse gas emissions and promote sustainable development. [Gap 2] The efforts of these groups have been successful, and carbon emissions have begun to decrease. [Gap 3] Renewable energy sources, such as solar and wind power, have become more popular. [Gap 4] Farmers are now using more environmentally friendly practices, and consumers are becoming more conscious of the impact of their purchasing decisions. [Gap 5] As a result, many companies are now incorporating environmental considerations into their business strategies. [Gap 6] The efforts of governments and organizations have been [Gap 7] the challenges facing the world.

34. Gap 1

- A** A. However
C C. As a result

- B** B. Despite
D D. In spite of

35. Gap 2

- A** A. Because of this
C C. Due to this

- B** B. As a result of this
D D. In spite of this

36. Gap 3

- A** A. However
C C. As a result

- B** B. Despite
D D. In spite of

37. Gap 4

- A** A. However
C C. As a result

- B** B. Despite
D D. In spite of

38. Gap 5

- A** A. However
C C. As a result

- B** B. Despite
D D. In spite of

39. Gap 6

- A** A. However
C C. As a result

- B** B. Despite
D D. In spite of

40. Gap 7

- A** A. However
C C. As a result

- B** B. Despite
D D. In spite of

PART 7

Read the texts below. For Questions 1-10, choose from the sections A-D. Each section may be chosen more than once.

A. The increasing levels of carbon dioxide in the atmosphere have been linked to a number of environmental problems, including global warming and more frequent natural disasters. As the world's population continues to grow, the demand for energy and resources is also increasing, leading to the depletion of natural resources and pollution of the environment.

B. Many governments and organizations are working to reduce greenhouse gas emissions and promote sustainable development. The efforts of these groups have been successful, and carbon emissions have begun to decrease.

C. Renewable energy sources, such as solar and wind power, have become more popular. Governments are implementing policies to reduce waste and promote recycling.

D. Farmers are now using more environmentally friendly practices, and consumers are becoming more conscious of the impact of their purchasing decisions. As a result, many companies are now incorporating environmental considerations into their business strategies.

41. Which text states that the increasing levels of carbon dioxide in the atmosphere have been linked to a number of environmental problems?

A A

B B

C C

D D

42. Which text mentions that the efforts of governments and organizations have been successful?

A A

B B

C C

D D

43. Which text states that renewable energy sources have become more popular?

A A

B B

C C

D D

44. Which text mentions that farmers are now using more environmentally friendly practices?

A A

B B

C C

D D

45. Which text states that many companies are now incorporating environmental considerations into their business strategies?

A A **B** B
C C **D** D

46. Which text mentions that governments are implementing policies to reduce waste and promote recycling?

A A **B** B
C C **D** D

47. Which text states that the demand for energy and resources is increasing?

A A **B** B
C C **D** D

48. Which text mentions that consumers are becoming more conscious of the impact of their purchasing decisions?

A A **B** B
C C **D** D

49. Which text states that carbon emissions have begun to decrease?

A A **B** B
C C **D** D

50. Which text mentions that the world's population is growing?

A A **B** B
C C **D** D

51. Which text states that renewable energy sources are becoming more popular?

A A **B** B
C C **D** D

ANSWER KEY (ANSWER SHEET)

PART 1 KEY

1.

A**B****C****D**☒☐☐☐**RATIONALE:**

The correct answer is A. Despite because the sentence is describing a contrast between the growing threat of climate change and the efforts of governments and organizations to reduce greenhouse gas emissions.

2.

A**B****C****D**☐☒☐☐**RATIONALE:**

The correct answer is B. Due to because the sentence is describing the reason for the decrease in carbon emissions.

3.

A**B****C****D**☒☐☐☐**RATIONALE:**

The correct answer is A. Steps because the sentence is describing the actions being taken to reduce waste and promote recycling.

4.

A**B****C****D**☐☐☐☒**RATIONALE:**

The correct answer is D. Because of the trend towards sustainability because the sentence is describing the reason for the growth of sustainable agriculture.

5.

A**B****C****D**☒☐☐☐**RATIONALE:**

The correct answer is A. As a result of the increasing awareness of environmental issues because the sentence is describing the consequence of the growing awareness of environmental issues.

6.

A**B****C****D**☒☐☐☐**RATIONALE:**

The correct answer is A. Due to the trend towards sustainability because the sentence is describing the reason for the trend towards sustainability.

7.

A**B****C****D**☐☒☐☐**RATIONALE:**

The correct answer is B. Due to the efforts of governments and organizations because the sentence is describing the reason for the growing importance of environmental protection.

8.

A**B****C****D**☒☐☐☐**RATIONALE:**

The correct answer is A. As a result of the efforts of governments and organizations because the sentence is describing the consequence of the efforts of governments and organizations.

PART 2 KEY

9. *despite*

RATIONALE:

The correct answer is despite because the sentence is describing a contrast between the growing threat of climate change and the efforts of governments and organizations to reduce greenhouse gas emissions.

10. *encouraged*

RATIONALE:

The correct answer is encouraged because the sentence is describing the consequence of the efforts of governments and organizations.

11. *steps*

RATIONALE:

The correct answer is steps because the sentence is describing the actions being taken to reduce waste and promote recycling.

12. *due*

RATIONALE:

The correct answer is due because the sentence is describing the reason for the growth of sustainable agriculture.

13. *because*

RATIONALE:

The correct answer is because because the sentence is describing the reason for the increasing awareness of environmental issues.

14. *due*

RATIONALE:

The correct answer is due because the sentence is describing the reason for the trend towards sustainability.

15. *despite*

RATIONALE:

The correct answer is despite because the sentence is describing a contrast between the efforts of governments and organizations and the challenges facing the world.

PART 3 KEY

16. *imposition*

RATIONALE:

The correct answer is imposition because the word imposition refers to the act of imposing something, such as a rule or a policy.

17. *accordance*

RATIONALE:

The correct answer is accordance because the word accordance refers to the action of agreeing or conforming to something.

18. *reviewed*

RATIONALE:

The correct answer is reviewed because the word reviewed refers to the act of examining or checking something.

19. *measures*

RATIONALE:

The correct answer is measures because the word measures refers to actions or steps taken to achieve something.

20. *awareness*

RATIONALE:

The correct answer is awareness because the word awareness refers to the state of being conscious or informed about something.

21. *sustainability*

RATIONALE:

The correct answer is sustainability because the word sustainability refers to the ability to maintain or support something over time.

PART 4 KEY**22. *since*****RATIONALE:**

The correct answer is since because the word since means a period of time since a particular event or action.

23. *of***RATIONALE:**

The correct answer is of because the word of means belonging to or relating to something.

24. *in order to***RATIONALE:**

The correct answer is in order to because the phrase in order to means for the purpose of achieving something.

25. *as a result of***RATIONALE:**

The correct answer is as a result of because the phrase as a result of means something that happens as a consequence of something else.

26. *due to***RATIONALE:**

The correct answer is due to because the phrase due to means because of something.

27. *because***RATIONALE:**

The correct answer is because because the word because means a reason or explanation for something.

PART 5 KEY**28.****A**☐**B**☐**C**☒**D**☐**RATIONALE:**

The correct answer is C. It has a negative impact because the writer mentions that the increasing levels of carbon dioxide in the atmosphere have been linked to a number of environmental problems.

29.**A**☐**B**☐**C**☒**D**☐**RATIONALE:**

The correct answer is C. It is harmful because the writer mentions that the increasing demand for energy and resources is leading to the depletion of natural resources and pollution of the environment.

30.**A**☒**B**☐**C**☐**D**☐**RATIONALE:**

The correct answer is A. Carbon emissions because the writer mentions that governments and organizations are working to reduce greenhouse gas emissions and promote sustainable development.

31.**A**☐**B**☒**C**☐**D**☐**RATIONALE:**

The correct answer is B. Renewable energy sources because the writer mentions that renewable energy sources, such as solar and wind power, have become more popular.

32.**A**☒**B**☐**C**☐**D**☐**RATIONALE:**

The correct answer is A. Waste and pollution because the writer mentions that governments are implementing policies to reduce waste and promote recycling.

33.**A**☒**B**☐**C**☐**D**☐**RATIONALE:**

The correct answer is A. The impact of their purchasing decisions on the environment because the writer mentions that consumers are becoming more conscious of the impact of their purchasing decisions.

PART 6 KEY**34.**

A	B	C	D
☐	☒	☐	☐

RATIONALE:

The correct answer is B. Despite because the sentence is describing a contrast between the growing threat of climate change and the efforts of governments and organizations to reduce greenhouse gas emissions.

35.

A	B	C	D
☐	☒	☐	☐

RATIONALE:

The correct answer is B. As a result of this because the sentence is describing the consequence of the efforts of governments and organizations to reduce greenhouse gas emissions.

36.

A	B	C	D
☐	☐	☒	☐

RATIONALE:

The correct answer is C. As a result because the sentence is describing the consequence of the efforts of governments and organizations to reduce greenhouse gas emissions.

37.

A	B	C	D
☐	☒	☐	☐

RATIONALE:

The correct answer is B. Despite because the sentence is describing a contrast between the efforts of governments and organizations to reduce greenhouse gas emissions and the popularity of renewable energy sources.

38.

A	B	C	D
☐	☐	☒	☐

RATIONALE:

The correct answer is C. As a result because the sentence is describing the consequence of the efforts of governments and organizations to reduce greenhouse gas emissions.

39.

A	B	C	D
☐	☐	☒	☐

RATIONALE:

The correct answer is C. As a result because the sentence is describing the consequence of the efforts of governments and organizations to reduce greenhouse gas emissions.

40.

A	B	C	D
☐	☐	☒	☐

RATIONALE:

The correct answer is C. As a result because the sentence is describing the consequence of the efforts of governments and organizations to reduce greenhouse gas emissions.

PART 7 KEY

41.

A**B****C****D**☐☐☐☐**RATIONALE:**

The correct answer is A because the text A mentions that the increasing levels of carbon dioxide in the atmosphere have been linked to a number of environmental problems.

42.

A**B****C****D**☐☐☐☐**RATIONALE:**

The correct answer is B because the text B mentions that the efforts of governments and organizations have been successful.

43.

A**B****C****D**☐☐☐☐**RATIONALE:**

The correct answer is C because the text C mentions that renewable energy sources have become more popular.

44.

A**B****C****D**☐☐☐☐**RATIONALE:**

The correct answer is D because the text D mentions that farmers are now using more environmentally friendly practices.

45.

A**B****C****D**☐☐☐☐**RATIONALE:**

The correct answer is D because the text D mentions that many companies are now incorporating environmental considerations into their business strategies.

46.

A**B****C****D**☐☐☐☐**RATIONALE:**

The correct answer is C because the text C mentions that governments are implementing policies to reduce waste and promote recycling.

47.

A**B****C****D**☐☐☐☐**RATIONALE:**

The correct answer is A because the text A mentions that the demand for energy and resources is also increasing.

48.

A**B****C****D**☐☐☐☐**RATIONALE:**

The correct answer is D because the text D mentions that consumers are becoming more conscious of the impact of their purchasing decisions.

49.

A**B****C****D**☐☐☐☐**RATIONALE:**

50.

A**B****C****D**☐☐☐☐**RATIONALE:**

The correct answer is B because the text B mentions that carbon emissions have begun to decrease.

The correct answer is A because the text A mentions that the world's population continues to grow.

51.

A	B	C	D
☐	☐	☒	☐

RATIONALE:

The correct answer is C because the text C mentions that renewable energy sources have become more popular.
